

MCTR903: Advanced Mechatronics Engineering

Winter Term, 2010-2011

Representation Review Form

Project	
Team	

Scheme: 5-excellent, 4-very good, 3-good, 2-fair & 1-poor

Structure: consider the following before grading	1	2	3	4	5
• Was there a clear introduction, body and conclusion? • Did the introduction make clear what the presentation was about? • In the body, was the flow of ideas logical? • Did the conclusion summarize the important ideas/results?					
Clarity:	1	2	3	4	5
• Were all the technical terms properly defined? • Were subtle concepts explained at a sufficiently high level to understand? • Was the presentation easy to understand?					
Mechanics:	1	2	3	4	5
• Were the slides easy to read and not overcrowded? • Was the talk audible? • Did the speaker avoid distractive gestures?					
Overall presentation:	1	2	3	4	5
• Was the presentation interesting to follow? • Was there a clear take home message?					
Discussion:	1	2	3	4	5
• How important were the question raised? • Did the discussion help understand and situate the work?					
Other comments and suggestion for improvement:
